

## PRESS RELEASE

---

September 12<sup>nd</sup>, 2022

**Gazechim Composites Group is pleased to announce its partnership with Aerovac-Composites One, European leader in the manufacture of process materials.**

This European partnership strengthens the global offering of Advanced Composites companies within Gazechim Group with recognized, approved, and certified products for markets including Aerospace, Automotive, Marine and Renewable Energy. Gazechim will now have a first-class partner and to work together on common projects, while sharing expertise.

*“I am delighted to partner with Aerovac, which achieves a historical connection between Composites One and Gazechim.”* said Jean-Marc Libes, Composites Director Group Gazechim. *“The Aerovac product line has added further depth to our existing solution-based offering for our customers.”*

*“We are excited about the opportunity to partner with Gazechim to expand our European footprint.”* said Robert Murdock, VP and General Manager, Aerovac Composites One. *“We feel confident that our products combined with our ability to add value through solutions like kitting and technical support that this partnership will result in further growth opportunities for both organizations.”*

Since September 12<sup>nd</sup>, Aerovac is the official partner of Gazechim Group.

For more information, your sales contact will reach you shortly.

**About Group Gazechim Composites:**

Group Gazechim Composites is the European leader of Composites raw materials' distribution. For more than 50 years, the Group distributes through first class partners located in more than 20 countries a full range of advanced and commodity composite materials. The Group also offers innovative and technical solutions, as well as specific products (epoxy resin, gel coats, aluminium or Nomex honeycomb) and kit-cutting capabilities.
